ABOUT ME

I am a developer specializing in modern web applications with React, Next.js, and TypeScript. I focus on writing clean, reusable code, but my biggest strength is my curiosity. I am highly motivated to master new technologies and can quickly adapt to whatever tools are needed to get the job done. I am looking to join a team where I can apply this mindset to help build and maintain robust software products. Outside of coding and learning, I enjoy the strategy and challenge of solving logic puzzles and playing video games like Rust and Counter-Strike.
